# Using ESSA to Redesign High Schools to Support Their Communities in the 21st Century

- Hopeful, positive, future-orientated frame to design high schools for the 21st century rather than being seen as failed schools in need of reform
- Goal is not a high school diploma but strong pathways through high school to postsecondary and adult success for all students
- Evidence-based, but locally customized/orientated-not one way for all
- Address stress and scarcity through capacity building and technical assistance partners tightly aligned to community redesign vision and goals
- Break social isolation via school networks facing similar challenges, provide opportunity for school leaders to travel to see other possibilities
- In high-needs communities make redesigned high school the center of community economic development and social integration efforts

# Global Guiding Questions

***How might we create a school where we all want to be?***

- A school with stronger outcomes? A school that is filled with joy? A school that is hopeful?

***How might we come to a common understanding of our shared opportunities and challenges?***

- How might we recognize our students as a community resource?

***How might we best utilize the different strengths of adults and students in the school?***

- How might we increase human resources in creative and low cost ways?
- How might we creatively involve our community in the process?

***How might we create an environment where we are one with a sense of belonging given the context we are in?***

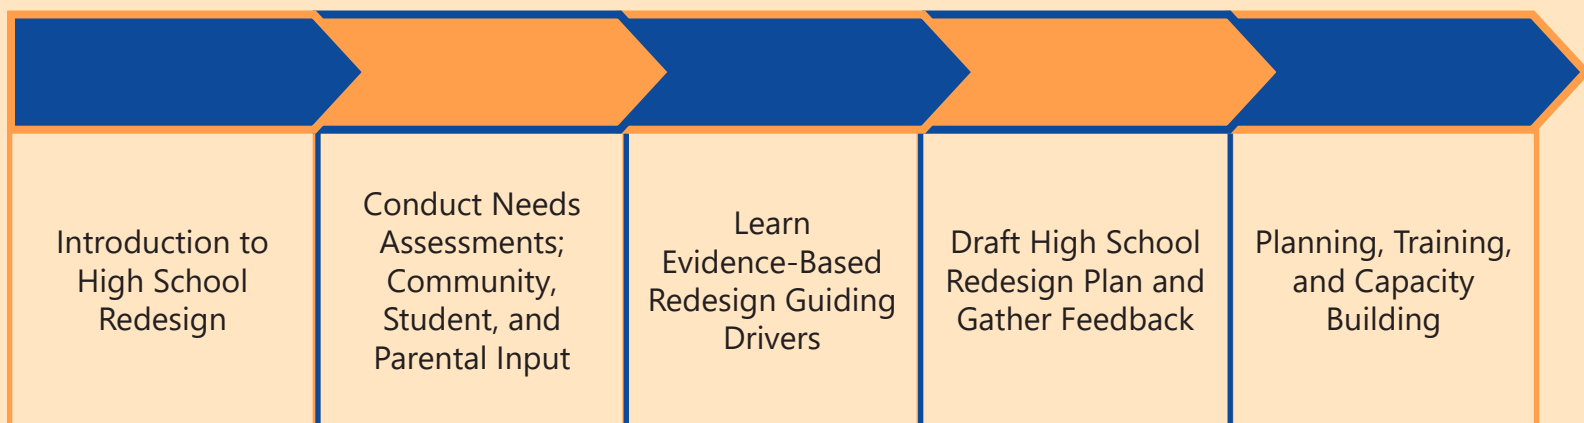

- How might we build on the relationship strengths of adults and students?
- Share a time when your school environment made you and others in the school feel a strong sense of belonging?

***How will our school culture support redesign opportunities?***

- Where will we build in time and places for continuous reflection?

***How to embrace the conflict and ambiguity which is inherent in change?***

## Demographic Information

Use your school's data to help guide your redesign. We've started off with some basic questions to help guide your team through this section. Feel free to add any data points to the ones provided.

- Who are the students in our school?
- Who are our entering ninth graders?
- Where do our graduates go?
- Who is in our community

### Who are the students in our school?

#### Enrollment

Grade 9 Enrollment		% Economically Disadvantaged	
Grade 10 Enrollment		% Caucasian	
Grade 11 Enrollment		% African American	
Grade 12 Enrollment		% Hispanic	
% Free/Reduced Lunch		% Native American	
% English Language Learners		% Asian/Pacific Islander

## Guiding Redesign Questions

Below are some guiding questions that may support your team in identifying evidence-based strategies to shape your developing high school redesign plan.

- **How might we build on the current strengths and talents of our staff?**
- **How might we develop strong relationships between teachers and between teachers and administrators?**
- **How might we support the ongoing development of teachers?**
- **How might we create a culture of data-driven decision making and make the data needed for sound decisions widely available?**
- **How might we ensure teachers and others have time to plan collaboratively?**
- **How might we form interdisciplinary teams of adults?**
- **How might we create a school master schedule that supports our redesign and enables the implementation of evidence-based practices in organizing adults, supporting students, teaching and learning and postsecondary pathways?**

**Evidence-Based Practice**

**Teacher Teams: Interdisciplinary, working with cohorts of students**

# STUDENTS AT THE CENTER

## Guiding Redesign Questions

Below are some guiding questions that may support your team in identifying evidence-based strategies to shape your developing high school redesign plan.

- How might we make room for and listen to student voice in our redesign efforts?
- How might we create a school environment which supports the development of positive relationships between students and students, students and staff?
- How might we develop and then sustain structures and that recognize/celebrate students and staff?
- How might we assign/schedule students so they can be known by the adults in our school?
- How might we shape student experiences to enable them to experience hope, agency, and purpose?
- How might we embrace Restorative Practices?
- How might we learn how to balance student choice and voice with structure and support?
- How might we adapt and improve our existing student support strategies to create a powerful early warning and multi-tiered support system that continually monitors all students progress and keeps them on track to postsecondary success?

# TEACHING & LEARNING

## Guiding Redesign Questions

Below are some guiding questions that may support your team in identifying evidence-based strategies to shape your developing high school redesign plan.

- How might we build adult capacity in our school and community to create learning environments which balance challenging students to achieve at high levels with a sense of caring and support?
- How might we shift from instructional practices to learning sciences informed practices?
- How might we begin to balance the three "R's" (rigor, relevance and relationships) to create challenging and caring classrooms?
- How might we change our perception from "learning enough to pass and mistakes are bad" to "mistakes are how we learn on the path to competency-based achievement."
- How might we build a formative assessment culture to tailor instruction and supports?
- How might we provide professional development supports and skill-building opportunities necessary to teach today's learners and to empower them for the future?

# POSTSECONDARY PATHWAYS

## Guiding Redesign Questions

Below are some guiding questions that may support your team in identifying evidence-based strategies to shape your developing high school redesign plan.

- **How might we create opportunities for work-based learning, job shadowing, and internships at the scale needed?**
- **How might we assess student competencies?**
- **How might we support ongoing college and career planning programming that starts in freshman year, including family awareness/communication, and college admissions counseling?**
- **How might we think about career pathways and personalized postsecondary journeys for students?**
- **How might we incorporate student/family voice and choice in postsecondary planning?**
- **How might we provide rich universal school experiences (electives, extra-curricular activities, etc.) for all students?**

**Evidence-Based Practice**

**Choice of pathway is up to student and family. Universal participation for access for all**
